IGOR VYSOCHANSKYY

Resume

Honeoye Falls, NY 14472 • Email: **igor.vysochan@outlook.com** • Phone: (585) 200-9832
Links: **LinkedIn** • **Portfolio** • **Medium**

OBJECTIVE

Transitioning from a career in the electronics industry and seeking a full-time entry-level or associate Data Analyst role to take up challenging and diversified projects.

SUMMARY

Experienced in collecting, transforming, and organizing data to support informed decision-making. Proficient in data analysis using Microsoft applications, including Excel, Access, Word, PPT, and tools like SQL, Tableau, and R. Strong organizational and analytical skills.

PROJECT

Chicago Cyclistic Case Study for Google Analytics Professional Certificate.
• Conducted an end-to-end analysis to explore *"How does a bike-share navigate speedy success?"* to identify marketing strategies to increase annual memberships.

• Analyzed differences and trends in bike usage between members and casual riders, focusing on trip volume, duration, and pricing.

• Utilized R programming (including ggplot() and percentile-based analyses), Excel formulas, and PivotTables to aggregate data and create clear visualizations.

• Derived actionable insights from large datasets to support data-driven recommendations.

• More details available in portfolio (see link "Portfolio").

Project description: **Link**. Run code and verify functionality on **Kaggle.**
